Education

Measi Institute of Information Technology Master of Computer Applications (MCA)	10/2023 – 06/2025 CGPA: 8.2
Dr Mgr Educational And Research Institute Bachelor of Computer Applications (BCA)	06/2020 – 04/2023 CGPA: 8.5

Skills

Java | Flutter | Firebase | Supabase | Node.js | TypeScript | Android SDK | MYSQL | RESTful APIs | Postman | Git | Figma | AI Tools

Experience

Application Developer Intern- [React Native, Node.js, TypeScript] - View Certificate 01/2025 – 05/2025
Title: Mercantile Society Onboarding, Measi Institute of Information Technology

- Architected a secure mobile platform utilizing React Native and Node.js for investors and mercantile personnel, streamlining stock transactions and financial management, resulting in 20% faster trade executions.
- Orchestrated front-end React Native builds of the mobile onboarding app, including OTP login and role-based access, resulting in a 30% decrease in user authentication failures and improved data security.
- Integrated document verification (OCR), certificate generation, and ensured quality via Postman and GitHub collaboration.

Hackathon Participant [School of Design Thinking], Industrial - View Certificate 07/03/2025 - 09/03/2025

- Developed "One City, One Platform", a unified civic app enabling real-time disaster alerts, public service access, and incident reporting for smart city management.
- Led frontend development in React Native, collaborated on RESTful API design, and integrated live map-based systems for emergency coordination.
- Delivered a working MVP under tight deadlines, gaining practical experience in rapid prototyping, cross-functional teamwork.

Projects

Company Website – Sri Mutharamman Engineering 06/2025

Freelance Project | Tools Used: React.js, Next.js, Tailwind CSS, WhatsApp API

- Built using Next.js for server-side rendering and fast performance, with Tailwind CSS for clean, mobile-first UI.
- Integrated WhatsApp Business interaction for instant customer inquiries and support. Designed SEO-optimized, accessible layouts to showcase products, services, testimonials, and contact forms.
- Live site: www.srimutharammanengineering.com

Donation App – Food & Blood Donation Platform [github.com/syedzubyl/Donation] 02/2024

Freelance Project | Tools Used: Flutter, Firebase, Cloud Messaging

- Developed a cross-platform app connecting donors with NGOs and individuals in need.
- Implemented secure login/register with Firebase Auth and real-time updates via Firebase DB and integrated push notifications, donation tracking, and OTP verification for smooth user interaction.

Assorted Brain Games [github.com/syedzubyl/Donation] 03/2023

Final Year Project | Tools Used: Java, Firebase, Android SDK, Git

- A collection of cognitive and memory games developed as a native Android app.
- Built an Android app using Java with Firebase Realtime Database, implementing live user authentication, login/register flows, and Git-based version control.

Certifications & Achievements

- Create a Mockup in Figma – Essentials and Fundamentals of UI Design (Figma Basics)
- Access SQLite in an Android Studio Project – Course Project by Project Networks
- Core Java Programming – Online Course by Great Learning
- Second Prize – National-Level Paper Presentation
Project Title: Clubs Management System with Campus Geo-Location Tracking
